1960

Professor of sixty students for art courses involving painting, ceramic, and sculpture at Seminary of Valleyfield, Quebec

1945 - 1971

During these years, he persisted in his artistic research putting in value the sculptural side of the materials. His experiences directed him towards the malleability of various materials such as; wood, concrete, steatite, glass, metal, marble and ceramic. He built himself a ceramic oven of 9 cubic feet which enabled him to realize murals.

Exhibitions of his sculptures at Galerie Libre, Montreal

1960
